

## United Israel and Palestine (UIP)

### Basic Philosophy of the state

1. All human beings are created equal and free.
2. The state exists to protect the fundamental human rights of the people which include;
  - freedom of speech, thought, religion, meeting, uniting, searching the truths and happiness
  - equality in election of the government, receiving education & welfare and protection by law,

### Languages

- Primary official language ; English
- Secondly official language ; Hebrew and Arabic,

### Government

- Democracy based on one vote per person principle

### Discussion;

The Palestinian refugee problem originated from establishment of Israel in 1948 in the land of Palestine. For the past 76 years suffering of the refugees has continued culminating in the ongoing atrocities in Gaza. The actions of Hamas on 7, October; killing and abducting ordinary people were nothing but terrorism. But it is a desperate action caused by the long, continuous blockade of Gaza for the past years. The agony of being besieged must be well understood by Israeli people whose ancestors were confined to ghettos in European cities by Nazis.

Hamas opposes Jewish state in the land of Palestine. The ideology of purely Jewish state is obsolete in 21 century. The nations of USA are from, European, African Asian and indigenous American decent. So are the situations in other major countries in the world.

I believe the UIP, if accepted by both Israeli and Palestinian people, can put the final solution to the Palestinian refugee problem. The potential of the UIP will be enormous and open new pages for the history of mankind.
